EXTENDED/TOTAL WEIGHT ON SHIPPING PAPERS
The documentation in this publication is provided pursuant to a Sales and Licensing Contract for the Prophet 21® System entered into by and between Prophet 21 and the Purchaser to whom this documentation is provided ("License Agreement"). In addition, the licensed software to which this documentation refers may be supported in accordance with a customer support agreement by and between the same parties ("Support Agreement"). All warranties, conditions of use, transfer restrictions, and other provisions in the License Agreement or Support Agreement which are applicable to Licensed Software, are applicable to this publication. In addition, this publication may include inadvertent technical inaccuracies or typographical errors for which Prophet 21 is not responsible. Changes may be periodically made to this publication; these changes will be incorporated in new editions of the publication. Any questions about the material contained in the publication should be addressed to the Prophet 21 Customer Support Department at 1-800-ITS-PR21.

Nothing in this statement amends or extends the terms of your agreement with Prophet 21, including warranties that might be included in our products. Warranties for such agreements are set forth in your agreement with Prophet 21.

Improvements and/or changes to the Licensed Software described in this publication may be made by Prophet 21 at any time without notice.

**DOCUMENTATION CONVENTIONS**

- The eyeglass symbol (<sup>≡</sup>) indicates a field on which you can browse.
- The star (★) indicates the system default for a field.
- To allow for the widest possible parameters when printing a report or performing a function, accept the defaults for all of the parameter fields. To accept the defaults, either escape through all the fields, or press [Enter] without specifying any values. Generally, samples in the documentation are shown using the default values.
- **Start** and **End** parameters define the limits to a range of information you will print on a report. If information does not appear on a report, it may be because the information was excluded from the **Start, End** range.
- For a detailed explanation on how maintenance screens function, refer to the **Tour Guide** manual.
- Use the **search** tool in Adobe Acrobat Reader 4.05c to find which manual describes a specific module, job, or function.

1 INSTALLATION INSTRUCTIONS

The PKG-INSTALL module is designed to allow you to install any Prophet 21® Optional or Select Software via a serial number, instead of using a separate tape to install the feature.

Before proceeding with these instructions, be sure to

✓ Stop the system.

✓ Run a Verify and the Job MISMATCH. For more information on these commands, refer to your Prophet 21 Operator’s Manual.

✓ Turn all units offline. For more information on turning your units offline, refer to the Operator’s Manual.

✓ Make a total copy of your system. For more information on creating a total copy, refer to the Operator’s Manual.

✓ After the total copy is made, keep the system stopped and turn all units online. For more information on turning your units online, refer to the Operator’s Manual.

✓ At Utility Command, press [Esc] to go to the Job prompt. Press [Enter] to log into the system and get to a Job prompt or jump to box.

1. To install the Optional or Select Software, you need the shipping paper sent to you by Prophet 21. This shipping paper contains a serial number that will be used in a later step.

2. Type **PKG-INSTALL** at the job prompt or jump to box to display the following screen:

   ```
   PKG-INSTALL
   -----------
   This program will allow you to pre-install an optional package or direct catalog feature. All that is required is the serial number, which is located on your shipping paper.
   
   Please enter serial#:
   ```

3. Enter the serial number that appears on the shipping paper sent by Prophet 21, and press [Enter].
4. If an incorrect serial number is entered, the following message appears:

** Invalid Serial Number! **

Retype the serial number from your shipping paper or contact the Prophet 21 Inside Sales Department for assistance.

5. If the correct serial number is entered, the following screen appears:

** Pre-Install Complete! **
Do you wish to run INSTALL now? (Y N)

6. To continue the installation of the Optional or Select Software, type Y and then press [Enter]. The Optional or Select Software installation screen will appear.

To suspend the installation of the Optional or Select Software, type N and then press [Enter]. When you are ready to resume the installation, type INSTALL at the job prompt or jump to box and press [Enter]. The Optional or Select Software installation screen will appear.

```
Installing: DC EXT & TOT WGH ON SHIP MM/DD/YY

** No activity profile questions needed. **
** No file or jobstream changes needed for this feature. **

Proceed? (Y N): Y

Installation complete.
Strike any key to continue...
```

Enter a "Y" to Proceed, "N" otherwise. If you choose to proceed, the Select Software is installed. A message displays when the installation is complete.

7. When the installation has been successfully completed, remember to activate all terminals by entering GO at the Utility Command prompt.
Add line item and shipment weight to shipping papers.

The Extended/Total Weight On Shipping Papers Select Software prints the extended weight of each line item and the total shipment weight on shipping papers (formats B, C, and D) and displays the total weight (in pounds) on the Shipment Confirmation screen.

**IMPORTANT!**
This Select Software works in conjunction with the Bill of Lading for Hazardous Material Select Software (DC Hazardous Material) to print weight on shipping papers containing both hazardous and non-hazardous items.

This Select Software is not compatible with the DC TOTAL WEIGHT ON SHIP Select Software. DC TOTAL WEIGHT ON SHIP prints the total shipment weight (rounded) on shipping papers. The total weight is preceded with the literal TOTAL WEIGHT and prints on the last line available in the body of the form.

**SHIP**

The extended weight of each line item and the total shipment weight prints on format B shipping papers.

**SHIPPING PAPER**

<table>
